

Short Term/Long Term Disability Insurance

Coverage that can help protect your income when you are unable to work due to sickness or injury.

Why is having disability insurance important?

Financial experts have long recommended disability insurance as part of a sound financial plan should you be unable to work due to illness or injury.

Your ability to earn an income is indeed one of your most valuable assets. Take a look at some of the key reasons why it pays to have disability insurance:

- Just over 1 in 4 of today's 20 year olds will likely become disabled before reaching age 67.¹
- 5.6% of working Americans will experience a short term disability due to illness, injury or pregnancy on average every year.²
- Illnesses like cancer, heart attack or diabetes cause the majority of long-term disabilities.³

If you are unable to work and earn an income due to a disability, you would want to be able to meet both your short and long term financial responsibilities.

If you have a spouse/domestic partner and/or children, most likely they rely on you to help keep the household running. 67% of employees say that one of their top five sources of financial stress is worrying about having enough money to pay bills if someone loses their job.⁴ You will want to make sure your family is financially prepared to handle essential living expenses if you are unable to work, such as the following:

- Mortgage or rent
- Car payments
- Food
- Child care/tuition

If you are single, and don't prepare ahead to cover your expenses, you may need to use your savings, sell your property, or borrow money from friends or family to meet your ongoing financial obligations while you recover.

Like most group disability insurance policies, MetLife group policies contain certain exclusions, waiting periods, reductions, limitations and terms for keeping them in force. Ask your MetLife sales representative for complete costs and details.

For policies issued in NY, MetLife Disability Income Insurance policies provide disability income insurance only. They do not provide basic hospital, basic medical or major medical insurance as defined by the New York State Insurance Department. The expected benefit ratio for these policies is at least 50%. This ratio is the portion of future premiums that MetLife expects to return as benefits when averaged over all people with the applicable policy.
