

Welcome to your Health Pro Connection

We are here to help!

As part of your benefits, you have access to your Health Pro Connection—a one-stop source that helps you easily navigate your health care benefits and resources.

Health Pro Connection

Start here! Once you log on to your Health Pro Connection, you can quickly access your insurance and deductible information, search for a provider, or reach out to a Health Pro for additional assistance.

Health Pro

Your Health Pro can provide help with tasks such as a bill review, appointment scheduling, or answering questions about your coverage. They can also connect you to your Medical Ally for clinical support.

Medical Ally

If you have questions about a health condition, your Health Pro will connect you to a Medical Ally, who can provide information on your medical diagnosis, the risks and benefits of surgery, and help getting a second opinion.

Health Pro Message Center

The Health Pro Message Center helps you connect with your Health Pro and track outstanding support requests. After hours, you can start a conversation with a Health Pro, and they will respond the next business day.

Your Health Pro Connection helps you make the most of your health care benefits and offers both self-service and live Health Pro support options.
